I like getting up early
A few cups of coffee
And going back to bed
I don't mind sitting in traffic
Cause thinking about nothing
Is good for my head, well

I never thought that I'd let anyone get inside
This world of mine but you did

And you see my yellow's and blue's
My imperfect truths don't bother you, yeah
You see, you see right through
For you I'll be transparent
For you I'll be transparent

I have a need for approval
I wanna be needed
Cause sometimes I'm insecure
I can't help it cause I'm only human
I know what I'm doing but sometimes
I'm not so sure

I never thought that I'd let anyone know all these things
about me
But you figured me out

And you see my yellow's and blue's
My imperfect truths don't bother you, yeah
You see, you see right through
For you I'll be transparent

It's hard to tell who you can trust
Who'll keep your secrets
And who'll give you up
I don't know much but I know you
And that's enough for me

You see my yellow's and blue's
My imperfect truths don't bother you, yeah
You see, you see right through

For you I'll be transparent

You see my gray's and my green's
The stuff in between and all that I dream
You see, everything
For you I'll be transparent
For you I'll be... transparent
