Boys in the corner talking bout' what they wanna
Do with the girls on the floor
They all look our way and wonder what we say
We laugh and they don't know what for

We can make your daddy blush - when we get a few
drinks in us
But we really don't want all you guys to know too much -
that's enough

But wouldn't you like to know what we're talking about
Dirty little secrets we're over here passing around, oh
yeah
Ohh, maybe it's hot - could be you, but probably not
It's over your head might as well let it go
But wouldn't you like to know

The object of the lesson is to keep you always guessing
And it looks like we're doing alright
We may drink the drinks you're buying but we know
what you're trying
All you'll get is broke tonight

When you walk up and ask us to dance - smooth like
you might have a chance
When we turn you down with a smile you can't
understand - you're just a man

But wouldn't you like to know what we're talking about
Dirty little secrets we're over here passing around, oh
yeah
Ohh, maybe it's hot - could be you, but probably not
It's over your head might as well let it go
But wouldn't you like to know
Wouldn't you like to know

Oh I know what you think
So sly with that walk and that wink
And you wonder what we say when you turn and go
But wouldn't you like to know - like to know
But wouldn't you like to know - like to know

But wouldn't you like to know - like to know
