"Baby I Love You"

Show me the way to your heart
And I won't let go
Tell me you love me that's all I wanna know
I sit alone at night I think of you
Come to me boy, I'll make sweet love to you

Baby I love you, I'm thinking of you
And I can't explain the way I feel
When you're around

Been so long since you left me all alone
Friday night, I'm waiting by the phone
You know these words I sing are just for you
Endless nights with you makes my dream come true

All alone at night, I cry these tears for you
There's something special about you boy
I just can't walk away and say goodbye
