Let me in and let me touch you,
I can be what you're addicted to.
Let me in and let me break you,
I'll be your heroin, I'll bring you down.
I'll be your bad trip coming around.

Drink me in, take me inside.
Let me control you and I'll blow your mind.
I've got what you need, give me a try.
Let me be your ride tonight.
I'll be your high.

Let me in and let me hold you,
I can love you like you've never known.
Let me in, I'll drive you crazy.
I can be the raindrops in your veins.
I'll hit you like cocaine.

Drink me in, take me inside.
Let me control you and I'll blow your mind.
I've got what you need, give me a try.
Let me be your ride tonight.
I'll be your high.

Once I'm inside, it's impossible to fight,
There's nowhere you can hide.
Don't even try, 'cause when I leave,
You'll be begging me for more.

Drink me in, take me inside.
Let me control you and I'll blow your mind.
I've got what you need, give me a try.
Let me be your ride tonight.
I'll be your high.
I'll be your high.
