It's cold outside
Just like fate
It's cold right here
Where is your heart
Someone get me out of here
Alive

Take my hand
Trust this smile
It's just one smile
I'm getting caught in softer parts of you
It's killing me too
It's killing me too

It's cold outside
Just like steel
It's cold right here
Just like blades

Someone get me out of here
Alive

Take my eyes
And cauterize my heart
Because it's killing nothing
It's killing nothing
I'm getting caught in the same soft parts
Of you

Watered down and feel the cool
Winter creep up your spine
These are mine, these are mine, and these are mine
This mouth bleeds
Trust this, this one smile
I walked the halls one thousand years
One thousand too long
Isn't nothing the same
All of us in watered down
Dumbfounded mercury

I'll trust this tourniquet again
I'll trust this tourniquet uh huh

I walk the halls of a sleeping dogma

Nothing amounts to anything (you said useless)

None of this amounts to anything (I'm useless)

And I'll send you a thousand apologies

Hugs and kisses

XO, XO

I'll send you a thousand apologies

Hugs and kisses, hugs and kisses

XO , mean a million apologies

XO

Hugs and kisses, Ray

Hugs and fucking kisses
