"Hello Strawberry Skies"

Visit "[Hello Strawberry Skies](#)" on MotoLyrics.com

There's lonely people in distress
Hell is better, I confess
All my dreams have been destroyed
Horse misused, eternal void
So many names upon the wall
Purple curtain, funeral pall
Seems they were so sincere
Mercy blossom, future's here

[Chorus]
Hello strawberry skies
Pleasant dreams for tired lives
Hello strawberry skies
Where the world never dies

Don't need a cross to hang around
Wings of envy, scenic sound
All our lives we've been on the run
Inner freedom rising sun

[Chorus]
