I know you don't wanna play like that
I know you ain't come up play like that
I know you don't wanna play like that
This money is all reverse
You the one who get it worse
I know you don't wanna play like that
I know you ain't come up play like that
I know you don't wanna play like that
Cause when it's all reverse
You the one who get it worse

I don't wanna play no more
I'm gonna have me champagne
Taking my girl of a granted
She the shit, cheated when she didn't even feel the
same
I got nothing on my brain,
Didn't feel like I was same
I didn't wanted the wolf's ...
Cause there's dope up in my vein
Feeling higher than a plane
Once settle right, I can't get it right
But I started this game
All late night dream, with the strippers out freak
Should have been keeping my ass home, now I'm
creeping
Every night week, like a little boy with no pride
Fuck holding it all in, now my soul on fire
Till I'm fucking her all friends, should let them fly
I'm doing all in, next time I ain't playing like that

[Hook]

I know you don't wanna play like that
I know you ain't come up play like that
I know you don't wanna play like that
This money is all reversed
You the one who get it worse
I know you don't wanna play like that
I know you ain't come up play like that
I know you don't wanna play like that

Cause when it's all reverse
You the one who get it worse

You know you on another level
Can nothing be settled
You can never be the few,
I see the streets win coup
I don't play with lil dudes
I don't play with lil tubes
Man I keep that yapa, straight yapa
I do this for my partners, straight mobsters
Bitch you's an impostor, but acting proper
Oh you like the gossip, I got some gossip
...will drop you
Won't be afraid to say, csi gonn have to clean
All up, ain't gotta search for you
Cause I know that y'all out...
Talking street shit, knowing that you wasn't raised like
that
So don't you play like that, don't you play like that

[Hook]

I know you don't wanna play like that
I know you ain't come up play like that
I know you don't wanna play like that
This money is all reverse
You the one who get it worse
I know you don't wanna play like that
I know you ain't come up play like that
I know you don't wanna play like that
Cause when it's all reverse
You the one who get it worse
