Everybody do boss, everybody superstar
Everybody this, everybody that
Never seen me...

Chorus:

Everybody talk boss if you let 'em tell it
Everybody got... fancy cars if you let 'em tell it
Everybody smoking Cush till you come around to smell
it
Everybody fake is f-cked up if you're asking me
Everybody got... fancy cars if you let 'em tell it
Everybody smoking Cush till you come around to smell
it
Everybody superstars if you let 'em
Everybody fake is f-cked up if you're asking me

I don't been around... n-ggers who claim they're from
the streets
Claim they're in the streets, claim they're packing heat
Then I shut up... same n-gger videos, made 'em clear
the block
From the beginning to this day I'm silent...
Never once had a n-gger...
Never once talked down to my n-gger...
But a lot of n-ggers climbing the street, be cool...
... to be your brother, but to hear you scream...
Never saw no... bitch, I'm that n-gger!
That's what they say about you when your bed turn, bet
you all gonna learn
... real trouble man, like...
We'll... like in the video that I...
Can't see that in my hand, n-gger cause I am bluffing
I'm still on paper work, some...
When they're counting you can pull my name, n-gger
I want the tone!

Chorus:

Everybody talk boss if you let 'em tell it
Everybody got... fancy cars if you let 'em tell it
Everybody smoking Cush till you come around to smell
it

Everybody fake is f-cked up if you're asking me
Everybody got... fancy cars if you let 'em tell it
Everybody smoking Cush till you come around to smell
it
Everybody superstars if you let 'em
Everybody fake is f-cked up if you're asking me
