Child's first trip away from home  
instant communication shown - no one knows  
ringing in my ear must be the phone  
pick my brain down to the bone - no one home

(Chorus)

Body touches are so cold  
someone saved her sweet soul  
tell me which way the river flows

will you still love me when I'm old

lifeline says I'm already dead  
open the window above my bed  
I've been misled  
dark crystals turn a shade of blood-red  
from my feet to my head  
I'm already dead

(Chorus)
