Trouble
"Rain"

Remember, when we were standing in the rain
like so many times before
wishing we could see again
what am I looking for
never really could explain
I caused you so much pain
now I understand

(Chorus)
Baby, rain must fall
blue skies are clear in her eyes
rain, she keeps fallin'

don't be afraid, look for the sun

Confusion seems to be all around
nothing is real
sometimes, when I can't take anymore
the way you always make me feel
never really could explain
I always loved the rain
now I understand

(Chorus)
