But everybody screaming real  
everybody, everybody, everybody  
everybody screaming real  
everybody, everybody, everybody  
everybody screaming real  
everybody, everybody, everybody  
everybody screaming real

on the real I don't know what that is

Real now that's..a lie  
someone responsible who takes responsibility for the  
actions they made  
someone who has kids and doesn't care for them  
but is actually that form  
really knowledge, knowledge is power

[Hook:]

Being the realist is an opinion not a fact  
but some pistols and water ..and what defines real  
is just the way that you react to get the monkey out the  
back  
From struggling then be met out the hustle  
and who will say that you won't get the..  
and they just say to get the..  
and then it's real to get ..blow it out  
by another nigga in the peal  
like sight on the one life you gotta live  
..couldn't get the deal  
got the ..play the bill  
but you aint say the nigga play worth mill  
white gonna live for the ..  
it's the vision on the ..so we gotta kill  
..your whole life in the chain  
you think you ..tell your friend everything  
and I will walk for a thousand..know anything  
what it feel like  
gets clod ..the story cold  
simple to show  
you ca get go and then you pay off the victim
