And if you only let me in
I'll be good
so good to you
And if I get the change again
I'll give it all
Nothing short of everything.

I left my message on your ansaphone
Poured out my heart
right after the tone
Feeling so alone
It's something that I think
you should know
Yes
it is

Three weeks and I'm already lost
I'm left with nothing and I'm counting the cost
Sitting on my own
There's no place for me to go
no
no
no

'Cos I can't think if anywhere else I'd rather be
And there's just one particular place
I'm begging you
please
please
please

And if you only let me in
I'll be good
so good to you
And if I get the change again
I'll give it all
Nothing short of everything.

Give me the answer that I'm waiting for
Don't leave me standing on the wrong side of the door
You can't ignore

My heart ain't gonna take any more
I can't take any more
'Cos I can't think of anywhere else I'd rather be
And there's just one particular place
I'm begging you
please
please
please

And if you only let me in
I'll be good
so good to you
And if I get the change again
I'll give it all
Nothing short of everything.

And if you only let me in
I'll be good
so good to you
And if I get the change again
I'll give it all
Nothing short of everything.
