There's a scratch on my finger from the cat.
I was only petting him, who'd have thought he'd do that?
And it doesn't feel good, and there's a sliver of wood
From the bench in the park where I sat.

Chorus:

So I think I'll need a bandaid (need a bandaid),
Or maybe three or four (or five or six or more)
And a bottle of that spray stuff we just got at the store.
Some sticky tape, a roll of gauze, and if you'd be so kind,
A washcloth and a piece of ice, but not the iodine.
No iodine.

There's a bump on my head from the wall.
I hit it when I was playing with the beachball.
I was climbing in a tree when I fell and skinned by knee.
It hurt, but I didn't cry at all.

Chorus

There's a hole in the sleeve of my shirt
On my arm there's a scrape and some dirt.
My friends were very sad, but I said it's not too bad.
As a matter of fact it doesn't even hurt yet.

Chorus (twice)
