Somebody help me, yeah,  
Somebody help me, now,  
Won't somebody tell me  
What I've done wrong?

When I was just a little boy,  
About seventeen,  
I had a girl,  
She was my queen.

She didn't love me, like I loved her,  
Now I know,  
Now I'm so lonesome  
On my own.

Somebody help me, yeah,  
Somebody help me, now,  
Won't somebody tell me  
What I've done wrong?

I need someone in my life  
I need a girl to hold me tight  
Someone who'll make me feel,  
Make me feel all right.

Somebody help me, yeah,  
Somebody help me, now,  
Won't somebody tell me  
What I've done wrong?

Somebody help me, yeah, (oh, yeah)  
Somebody help me, now, (oh, baby)  
Somebody help me, yeah, (I've lost my baby)  
Somebody help me, now (won't somebody help me?)

Somebody help me, now (won't somebody help me?)
