We hold our heads high when the rain comes down  
It's been a long day but now it's done  
You're all I need  
All day  
All night  
What we don't have we don't need

Get by  
Oh we get byyyyy  
With all we need to survive  
We get by

Oh I lived in the city  
I've lived in the trees  
Do what I want  
Oh I do what I please  
Your holiday is everyday for me  
Oh the sun is shining  
Shining down for free

Get by  
Oh we get byyyyy  
With all we need to survive  
We get by

Get by  
Oh we get byyyyy  
With all we need to survive  
We get by
