When I was but a schoolboy  
I dreamed I would grow tall  
And man, it made me crabby  
That a crab could be so small

With this I tell my teacher  
She say, "But don't you see?  
Each and every creature  
Is exactly how they should be"

She said we all are special  
From jellyfish to king  
We all do different things  
And with that she start to sing

You got to be you  
I got to be me  
It's simple but true  
What else could you do  
Who else could you be

You got your own style  
Now let it come through  
And remember no matter what  
You got to be you

Skatefish got to skate  
Stingrays got to sting  
Catfish got to purr  
And Sebastian got to sing  
Seahorse got to ride  
Flounder got to play  
And whale got to make the trouble  
All the livelong say

So why should you be gloomy  
That you're too big or small  
The sea is very roomy  
And there's plenty room for us all

You heard my little story

Now let it be your guide  
Just treat yourself with pride  
You'll be more than satisfied

You got to be you  
I got to be me  
I'll try to be clearer  
Look in the mirror  
What do you see?

You see what I mean  
Now let us review

Let's see now...  
Some may be tiny  
Some got the claws  
Gills may be shiny  
Sharks got the jaws  
Down in the briny  
Those are the laws  
And that is why we sing

You got to be you  
I got to be me  
It's simple but true  
What else could you do  
Who else could you be

You got your own style  
Now let it come through  
And remember no matter what  
You got to be you

You got your own voice  
You've got to rejoice  
You got to be you  
Don't be so blue
