Let's have a black celebration

Black Celebration

Tonight

To celebrate the fact

That we've seen the back

Of another black day

I look to you

How you carry on

When all hope is gone

Can't you see

Your optimistic eyes

Seem like paradise

To someone like

Me

I want to take you

In my arms

Forgetting all I couldn't do today

Black Celebration

Black Celebration

Tonight

To celebrate the fact

That we've seen the back
Of another black day
I look to you
And your strong belief
Me, I want relief
Tonight
Consolation
I want so much
Want to feel your touch
Tonight
Take me in your arms
Forgetting all you couldn't do today
Black Celebration
I'll drink to that
Black Celebration
Tonight
