New sound all around
You can here it too
Getting hot, never stop
Just for me and you
Playing on my radio
And saying that you have to go
New day turn away
Wipe away the tear
New night feel alright
Knowing that you're here
Dancing with you all the time
And don't you think that it's a crime
Back street never meet
Never say goodbye
I know where you've been
But I don't know why
You say that it's from above
Then I say this is modern love
