Chorus)

There's something beating here  
Inside my body and it's called a heart  
You know how easy it is,  
To tear it apart  
If I lend it to you  
Will you keep it safe for me  
And if I lend it to you  
If you treat it tenderly  
There's something beating here  
Inside my body and it's called a heart

There is a sun shining in the sky  
But that's not the reason why  
I'm feeling warm inside  
The answer isn't classified  
It's my heart  
From the moment I started  
I tried to be good-hearted  
Since I tried my best  
And more or less  
I spoke with my heart  
There's a lot to be learned  
And you learn when your heart gets burned

(Chorus)

Hearts can never be owned  
Hearts only come on loan  
If I want it back  
I will take it back  
I'll take my heart  
But I will try my best  
And more or less  
I'll speak from my heart  
Yes I will speak from my heart  
(Speak from my heart
