"I stand still stepping on a shady street

And I watch that man to a stranger

You think you'll only know me

When you turn on the light

Now the room is liquid red danger

Complicating, circulating

New life, new life

Operating, generating

New life, new life

Transition to another place

So that time will pass more slowly

Your features fuse

And your shadow's red

Like a film I've seen now show me

Complicating, circulating

New life, new life

Operating, generating

New life, new life

The place is hidden and we're out of sight

And the road just leads to nowhere

The stranger in the door

Is the same as before
So the question answer's nowhere
Complicating, circulating
New life, new life
Operating, generating
New life, new life
I stand still stepping on a shady street
And I watch that man to a stranger
You think you'll only know me
When you turn on the light
Now the room is liquid red danger
Complicating, circulating
New life, new life
Operating, generating
New life, new life"
