Here down the crane Construction Time Again
What is for this time
We're laying on a pipeline
Let the beat so sweat flow to the end of manlove
Would take a long time
Working on a pipeline
Taking from the greedy and giving to the needed

All missed gold, can take
Words can sent our way
But could not survive time
Working on a pipeline
From the heart of the land
To the mountain of the men
Must reach you sometime
We're laying on a pipeline
taking from the greedy and giving to the needed
