save it for someone who'll really make a difference
save it for someone who'll really understand
I know that you care for me, I know it's been a long time
since
the first time that we touched our soft warm innocent
sweet lips
the day that you cared for me was the day that you met
yourself
in my heart, it is still there
I still think and wish that sometimes we should be
together
but for one of us, it's never fair , yeah!

please don't ever fall apart
it was never all good from the start
I know I am not the better man
but I will always be your friend

save it for someone who really has a better chance
save it for someone who won't try to get in your pants
I know that you're scared of me I never had the chance
to say
The guy you're with don't fucking love her!

I told you not to care and not to ever think about
if you don't want to be my friend
you hurt yourself, you fell but your heart was still intact
To call me up and cry, but now who's wrong? YEAH

I told you so... and I'm right
