I was lost in darkness
Never knowing where to turn
I thought I had all the answers
But I had so much to learn
Like a child I had gone astray
Trying to make it on my own
Like a father You embraced me
And You showed the way back home

[Chorus]

and Now that I know the truth that you proclaim
I will keep trusting You to fill me up 'til only You remain
And I will not rest until my every word brings glory to
Your name
all that I am, all that I do, I live for You

Only You could save me
From the debt I had to pay
So now I want to tell the world
The difference You have made
You have changed the way I live and love
And made my heart brand new
Now that we are joined together
I know I'm nothing without You

[Chorus]

and Now that I know the truth that you proclaim
I will keep trusting You to fill me up 'til only You remain
And I will not rest until my every word brings glory to
Your name
all that I am, all that I do, all of my life ... I.....I I live
for You
