So many words, so many lies  
Funny now there's nothing left to say  
We had our share of days in the sun  
But we let the clouds get in the way.

Who knew how high we could climb  
'Til we got to the top and we saw how far we could fall?  
Now that you're gone, it's all I can do  
To keep from losing it all

[Chorus]  
Tell me, what do we wish on now  
Now that our star has fallen from the sky?  
Where did we go so wrong in this love  
And how do I kiss you goodbye?

Letters and cards, pictures of you  
I never thought, they would look so old  
Must have been fools, we had it all  
But it, fell apart when our love grew cold.

Standing with you in rain  
Only now in the end can we drop our guard and be real  
Wishing you well, watching you go  
I don't know how I should feel

Tell me, what do we wish on now  
Now that our star has fallen from the sky?  
Where did we go so wrong in this love  
And how do I kiss you goodbye?

'Cause lately my heart keeps telling me to run to you  
I still can't believe that you're gone  
But, baby, my mind keeps telling me that we are  
through  
And tell my heart to move on

[Chorus x4]
