Dancing behind closed doors,
closed doors
a marathon of nosebleeds.
heads down on the glass.
your eyes are red and you're convinced,
you're made of gold.
and you won't stop
until youre finding inspiration on the bathroom floor.
the night's not over until it's overdone, until you
overindulge.
the night's not over until you're over her.

Your eyes are red and you're convinced,
You're made of gold.
and you wont stop
until youre finding inspiration on the bathroom floor.
tonight were on top of the world and were not coming
down.
tonight were on top of the world and were not coming
down
the night's not over until it's overdone, until you
overindulge.
the night's not over until you're over her.

(Rehearsal)

(Rehearsal)

The night's not over until it's overdone, until you
overindulge.
The night's not over until you're over her.
Tonight were on top of the world and were not coming
down.
Tonight were on top of the world and were not coming
down
Tonight were on top of the world and were not coming
down.
Tonight were on top of the world and were not coming
down
(I'll see you)
