So you say you want to make art,
But you dont have the heart or the words worth
repeating.
Not that you could ever
not that you could ever sell it in those jeans.
I think you forget: its not the voice so much as how you
wear it.
the interest isnt in a drug of choice;
It's in the price of the high.

You're climbing the tiers on a campaign trail to make
something so personal
a high commodity.
oh there are so many
so many holes in your story.

I think you forget: its not the voice so much as how you
wear it.
the interest isnt in a drug of choice;
It's in the price of the high.

so you want to be a high commodity.
congratulations, you've sold your story.
you're a long ways away from the coastal climates
you're used to.

I think you forget: it's not the voice so much as how you
wear it.
the interest isn't in a drug of choice;
It's in the price of the high.

I think you forget the business you're in.
I think you forget the business you're in.
I think you forget the business you're in.
