

Moffatts, The

"A Little Something"

Visit "[A Little Something](#)" on MotoLyrics.com

There's a whole lotta love inside
This little bitty heart of mine
And if you wanna take it a little at a time
That'll be just fine
You've put a little light in my life
That nobody shines above
Yeah, you got a little somethin' I think I need a whole lot
of

CHORUS:

Yeah, baby, you got a little somethin' I think I need a
whole lot of
If we take a little time
I can show you a whole lotta love

We gotta little moonlight tonight
And there's a whole lotta stars above
And you got a little something I think I need a whole lot
of

I've searched this big world over
For that special little somethin' you got
I can't figure out what's so different about you
But I like it a lot
I'm satisfied, yeah, I'll be satisfied
Forever, if you'll be my love
Yeah, baby, you got a little some thing I think I need a
whole lot of

(REPEAT CHORUS TWICE)

Yeah, baby, you got a little somethin' I think I need a
whole lot of
