I catch myself staring off into space
With pain in my heart and tears on my face
The sorrow that lingers deep inside my soul
Makes each day's passing so hard to control

(bridge)
If only I had known
What I've come to know now
I'd turn back the hands of time
And show you somehow

(chorus)
All I need is you to need me too
The way I need you
All I need is you to love me too
The way I love you
My life is complete
When I hold you in my arms
All I need is
All I need is you

I'll never understand why you drifted away
When the love that we shared
Seemed so precious each day
The memories I cherish are still dancing in my heart
To rekindle the romance when we had time that spent
apart

(repeat bridge and chorus)
