"Girls Of The World"

Swedish girls are hip
We like the way they wear their hair
Spanish girls have that look
That makes us really wanna stare
German girls hold us tight
And let us know that they care
French girls dress so suave
With all that style and flare

They're all so great to see
Canadian and Japanese

(chorus)
Girls of the world
Girls of the world
Girls of the world
We love you

Irish girls keep smiling
They always have a real good time
Austrian girls are sweet
They are all so soft and kind
English girls have that sound
The way they speak is so divine
US girls go wild
The way they walk blows my mind

They're all so great to see
Australian and Portugese

(repeat chorus)

African, Netherlands and Philippines
The girls of the world make our dreams

(repeat chorus)
