Captain May I has asked us to take a seat
This is the end of the beginning
We hope you can sleep
Pop a pill and lose track
You won't want to go back

Close your eyes and count to ten
We'll leave the past behind

You'll get your freedom and your voices back
What you've lost you will find it
Life on Mars
Pick up the pieces and live with the stars
We'll find it, find it, find it
Life on Mars

Captain May I has told us we're ready to land
The martians will greet us but no one is an alien
Ready to let it all go
Forget everything you know

This is the final destination
Welcome to cloud nine

You'll get your freedom and your voices back
What you've lost you will find it
Life on Mars
Pick up the pieces and live with the stars
We'll find it, find it, find it
Life on Mars

I've got something to say, I've got something
I've got something to say, I've got something
I've got something to say, I've got something
Close your eyes and count to ten
We'll leave the past behind

You'll get your freedom and your voices back
What you've lost you will find it
Life on Mars
Pick up the pieces and live with the stars

We'll find it, find it, find it
Life on Mars
