Do you remember me, 'cause I remember you
I was a little scared
I never knew what I could do
It was like a light
In the middle of the night
When I realized that fear was something I could lose
I'll never turn around anymore

We are young, we are free
You can run away with me
We are young, we are free
If you only believe
That everything you want is not so far away
We are young, we are young
Forever, forever

Everywhere I go, everything I see
If you wanna know just take my hand and come with me
Just another day, another mile away
If you take a chance then you can have your fantasy
We'll never turn around anymore

We are young, we are free
You can run away with me
We are young, we are free
If you only believe
That everything you want is not so far away
We are young, we are young, we are young
Forever

If you believe in all of your dreams
Then your fear will never go away
If you open your eyes
I know you will see that we're young and we're free
We are young

We are young, we are free
You can run away with me
We are young, we are free
If you only believe
That everything you want is not so far away

We are young, we are young
Forever, forever, forever
