Turn on the news today  
What else do i see  
Something going on some where else  
It means the world to me

Shots going off  
Right on my TV.  
And i can't help myself.  
To think this could be me.

Why do we have to fight?  
Why do we have to cry?  
Sacrifice our lives  
To prove we have the rights?  
Then sleep these lonely nights.

Why does it have to hurt.  
To mend these endless burns?  
Why do we have to lose?  
There's nothing left to prove.  
Where there's a will there's a way.

Walking down the road today.  
A lady came up to me.  
Asking where her child had gone.  
So hard to believe.

One minute you're there.  
The next minute you're gone.  
What's going on  
And I can't help myself  
To think these things went wrong.

Why do we have to fight?  
Why do we have to cry?  
Sacrifice our lives  
To prove we have the rights?  
Then sleep these lonely nights.

Why does it have to hurt.  
To mend these endless burns?

Why do we have to lose?  
There's nothing left to prove.  
Where there's a will there's a way.

[bridge]

Why do we have to fight?  
Why do we have to cry?  
Sacrifice our lives  
To prove we have the rights?  
Then sleep these lonely nights.

Why does it have to hurt.  
To mend these endless burns?  
Why do we have to lose?  
There's nothing left to prove.  
Where there's a will there's a way.
