Take no offence to this speaking from my own  
experience  
There's a price to pay when you get caught up no  
telling  
What you'll get but you can lose the same  
With no respect never seen the real through all the  
dark

You have a patient love yes you do  
And don't believe everything you hear  
Just let the truth be known  
Push force like rain

First you caught up no things genuine  
Push force like rain  
So caught up by the hype and nonsense  
Let the truth not change

I can see straight through clear people heartless &  
spineless  
Tryin' to fit in kissing my joy with pain it's all in vein  
I'm just a jem in the city tryin' to survive

You have a patient love yes you do  
And don't believe everything you hear  
Just let the truth be known  
Push force like rain

First you caught up no things genuine  
Push force like rain  
So caught up by the hype and nonsense  
Let the truth not change
