So it's over now  
Finally I'm beneath  
And I'm crawlin' out  
On my knees

I can hear what you said  
Echoing in my head  
And I'm losing  
Myself

Now I'm cold on the floor  
And I don't care anymore  
'Cause its over  
It's over

I can feel, I can feel  
Like it's real, like it's real  
I can feel, I can feel

I can finally feel  
So I guess it's over now  
And you broke me down somehow  
Now I'm faltering  
I can see, I can be  
I can leave and shut you out

I can feel, I can feel  
Like it's real, like it's real  
I can feel, I can feel  
Like it's real, like it's real

So I'm leaving now  
Somehow underneath  
As I slowly drown  
Finally

I can hear what you said  
Echoing in my head  
And I'm losing  
Myself

I can feel, I can feel

Like it's real, like it's real  
I can feel, I can feel

I can finally feel  
So I guess it's over now  
And you broke me down somehow  
Now I'm faltering  
I can see, I can be  
I can leave and shut you out

I can feel, I can feel  
Like it's real, like it's real

I'm shaking deep inside  
I'm having trouble breathing  
I need somewhere to hide  
Away 'cause I am healing

I'm having trouble breathing  
Tomorrow I am healing

So I guess it's over now  
And you broke me down somehow  
Now I'm faltering  
I can see, I can be  
I can leave and shut you out

I can feel, I can feel  
Like it's real, like it's real  
I can feel, I can feel  
Like it's real, like it's real
