"For Your Precious Love"

Visit "[For Your Precious Love](#)" on MotoLyrics.com

Your precious love, love means more to me
More, more than any love can ever mean, baby
You're entire truth, oh and I
Oh, I wanted you, lately I was so lonely
So lonely, lonely, so lonely and so blue
Good God, and that
That's what love will do, do

And you know something ladies
And especially you ladies I'd like to speak to
Because you know something ladies
You got a man, I don't care what kind of man you got
He wants you to get down on your knees every once in
a while
And kinda crawl to him
And you know I got a man that's somewhere out there
That I don't mind crawling to
Sometimes I wake up in the midnight hour
Tears rolling down my face
And if I look around for my man and I can't find him
Hey I follow the Lord
Look a little higher, kinda pray to the Lord
Because I always believe that the Lord can help ya if
nobody else could
But sometimes I think he don't even hear me
So after falling alone on my knees, look a little higher
Kinda raise my voice a little higher
And this is what I say when I call on my man
I especially want you ladies to listen to me
Cuz maybe you can try this
It might help you every once in a while
This is what you say when you call on your man
Give it to 'em to

Darlin', yeah darling, oh ladies
Darlin' don't you know that I love you so much, hey
yeah
Oh, whew, fall down on my knees
Beg my baby please
I got to tell the man that I love him, yes I will
Whew

For your precious love
For your precious love
There's nothing, there's nothing
Nothing in this whole wide world
I wouldn't do for you darling, oh
I'd walk all night out in the rain
Lord I got to see my baby again
I gotta tell the man that I love him
One more time ya'll, whew

For your precious love
For your precious love
There's nothing, there's nothing
Nothing in this whole wide world
That I wouldn't do for you darling, oh
I'd walk all night out in the rain
Lord I got to see my baby again
I gotta tell the man that I love him
Yes I do, whew

For your precious love
For your precious love
There's nothing, nothing
Nothing in this whole wide world
That I wouldn't do for you darling, oh whew
Get down on my knees
I gotta beg you baby please
I gotta tell ya that I love ya
One more time, whew
