Umm...

Its not what I want

[Chorus:]

I need to have you next to me

Or somethings not right with me

Its not just sex to me

Its ecstasy

If your not making love to me

Its something like a drug for me

If your not next to me

I need ecstasy

You should belong to me waited to be hurt on the effect
you have on me

Try to blow my mind thank God you got it finally when I
was really though

You discovered that emotion deeper than every ocean
that never revolves

[Repeat Chorus]

See I know your coming through tonight specially with
this urgency

And I never disappoint ya right got it good and tight oh
now could you

Please do me a favor go head baby you touch that
emotion that relives a

Devotion release my love

[Repeat Chorus 2x]
