Stray lights will pass us by on our way to you
As they disappear from view, away from you
Lay back down 'cause you almost met your match
It's too late now 'cause I can't wait for you

And I can't remember what you said
And I'm disconnected from you

These skies will burn for you
There's nothing you can do
Tomorrow's crawling through
And your salvation's over

These skies will burn for you
There's nothing you can do
Tomorrow's crawling through
And your salvation's over, your salvation's over

Late nights and I remember giving into you
Expecting something new into you
Can't slow down 'cause now you've said too much
Time will run out 'cause I can't wait for you

And I can't remember what you said
And I'm disconnected from you

These skies will burn for you
There's nothing you can do
Tomorrow's crawling through
And your salvation's over

These skies will burn for you
There's nothing you can do
Tomorrow's crawling through
Your salvation's over, your salvation's over

Yes, I can't remember
And I can't remember
And I can't remember
From you

These skies will burn for you

There's nothing you can do
Tomorrow's crawling through
And your salvation's over

These skies will burn for you
There's nothing you can do
Tomorrow's crawling through
Your salvation's over

Your salvation's over
Your salvation's over
