Standing here, I'm cold inside with fear  
And I can't feel my soul  
Take me in I'm yours again  
For awhile just like the last time

Lead me from the fear  
And I won't leave you here  
There's a way out, there's a way out  
There's a way from here believe

And lead me from the fear  
And I won't leave you here  
There's a way out, there's a way out  
There's a way from here believe

I feel weak and I'm slowly losing touch  
With what is left in me  
Take me in, I'm yours again  
For awhile just like the first time

Lead me from the fear  
And I won't leave you here  
There's a way out, there's a way out  
There's a way from here believe

And lead me from the fear  
And I won't leave you here  
There's a way out, there's a way out  
There's a way from here believe

And I need you to keep me here  
I'm starting over again  
And I need you to keep me here  
I'm starting over again

Lead me from the fear  
And I won't leave you here  
There's a way out, there's a way out  
There's a way from here believe

And lead me from the fear  
And I won't leave you here

There's a way out, there's a way out  
There's a way from here believe

There's a way out, there's a way out  
There's a way from here believe  
There's a way out, there's a way out  
There's a way from here believe
