i want a muthafucking marriage and some little kids  
i wanna be the one that knocks on your grave  
in the cemetery grave yard but not your slave

chorus:

..cause california is where i'm headed in my time...

..cause LA is where i'm headed in my time...

..cause long beach is where i'm headed in my time...

I Was Born To See

Just To Look For A Reason

finding myself, the fucking way as i be

why would you turn on me

just let me live, and just let me live!

and just let me live!

And I'll Promise That i'll muthafucking promise That,

i'll muthafucking promise to your sorry face...yeah..

Fuck the system,

long live my freedom.
