Every night I close my eyes
I dream of you a sweet surprise
You holding a rose for me
Every day brings something new
One minute I'm there with you
Only if you could be there too

Even though you're there in person
You're not there in your eyes
And i know that you want to be there too
You only have to realize

Love comes around, and goes around
Then brings you down.
When it goes away, all that I can say
Is that I hope you notice me
Just like I noticed you that day

Sometimes I do Wish of that perfect kiss
That I will never have
If you only knew the way i feel
Then love would have a chance to be real
ooh yeah

Love comes around, and goes around
Then brings you down
When it goes away all that I can say,
Is that I hope you notice me like I noticed you that day

Baby I don't know
Which way to go
But I'll make you see
It's time to notice me.
ooooh ooh yea yea

I noticed you
I noticed you baby
I noticed on that day
Just notice me
Notice me baby
Notice me, then love will wont go away

yea yea
