\* originally Adventures of Super Rhymes 12"

Rhymes faster than a speeding bullet  
Has more rhymes than a train has tracks  
Able to leap sucker MC's in a single rhyme  
Look, at the jam, on the mike  
(It's a bird!)  
(It's a plane!)  
No  
I'm Su-  
Su-  
Super Rhymes  
(Rhymes)  
(Rhymes)  
(Rhymes)...

It's the new thing, makes you wanna swing  
While us MC's rap, doin our thing  
It's not singin, like it used to be  
No, it's rappin to the rhythm of the sure shot beat  
It goes one for the money, two for the show  
You got my beat, now here I go  
You see, this DJ, he gets down  
Mixing records while they go round  
With the hiddip, the hop, ya just don't stop  
You rock to the beat till it makes you drop

Yes, I'm one of a kind, I'm Super Rhymes  
And I'd like to say hello  
And since I'm on the mic and I'm ready to rock  
This is how it goes  
Yes, I rock so good, I rock so well  
I ring-ding-ding-ding-ding-a-dang  
Baby, I'll ring your bell  
Yes, I'm Super Rhymes, I'm 22  
I'm gonna be 100 before I'm through  
Because no, I didn't come from the planet Earth  
Planet Rhymeon is my place of birth  
>From the day I came out my mother's womb  
I found myself in the operating room  
Then the doctor spanked me on my behind

I didn't cry, the kid started to rhyme  
My mother said, "Son, that's the way it should be  
Your name is Super Rhymes, you'll be an MC"  
So then my father put me on a meteorite  
Sent me to Earth to rock the mike  
I got to Earth and started layin it down  
At the jam, on the mike, I could be found  
While I was at the jam this one time  
Rockin to the beat, said I'm feelin fine  
Just freakin out on a freak's behind  
I looked in the face of Frankenstein  
I said, "No, no, she's not mine"  
Because my woman is fine as wine  
And she goes by the name of Louis Line  
But she didn't come here with me this time  
I'm feeling real sad, but not that bad  
I'ma have to run away from this crowdad  
I ran to the deejay to rock the mike  
He said, "Super Rhymes, take it, do what you like"  
So I rocked the party viciously  
This guy I didn't know, walked up to me  
But the closer he got, the more I could tell  
It was the man they call Howard Cosell  
The guy you'd see on KBC  
While Joe Frazier boxed Muhammad Ali  
He said, "Excuse me, sir, are you Super Rhymes?  
The one with the fine woman Louis Line?"  
I said, "I am, will I be on TV?  
Like to float like a butterfly stingin Ali  
He said, "Yes, my man, if you show me you can  
I was told you had the masterplan"  
So I rocked the mike for Howard Cosell  
To show America how I rocked so well  
And while I rocked the mike, this is what I said  
About Dracula, the living dead  
He didn't like blood, not this vampire  
The disco beat was his desire  
Transylvania's where he made home  
Until one day he decided to roam  
And then out of the crib he did crawl  
Count Dracula is what he's called  
He said, "The sun's gone down, and now it's night  
I'm goin to spread my wings and take a serious flight  
I turned into a bat, I flew away  
I said at the disco is where I gotta stay  
Because back home, there was nothing like this  
In Transylvania this is what I'd miss  
They just bite necks and suck blood all day  
But I know there had to be a better way  
I parked my car, sun set, "Vampires, I am leaving"  
So I turned into a bat and cut out that evening

The first disco I hit was 54  
They didn't even want to let me in the door  
I said, "Listen, my man, I am a real cool guy  
I can turn into a bat, I can even fly"  
He said, "Dracula, you can do all of that  
Then come on in and catch a neat freak attack"  
So I went inside and I started to dance  
And had all the ladies waitin for their chance  
They said, "Isn't he cool with his widow's peak"  
And the strange way he does the Freak  
He said, "Where I come from it's not called the 'Freak'  
It's the Transylvanian Boogie, seven days a week"  
I didn't get to dance with them all that night  
Cause at the break of dawn I saw sunlight  
I said, "I'm sorry to say I cannot stay"  
Cause us vampires must be in before it turns day  
But don't forget, I'll be back  
I like it when I catch a neat freak attack  
And since you heard my story, it's time I be leaving  
In Transylvania we say "good evening"  
Mr. Cosell said, "Damn, that's good  
You'll be on TV in every neighborhood"  
He said, "Super Rhymes, you're a real MC  
We must put you on KBC"  
I said, "I'll dress to impress, won't claim I'm best  
I'll come a little better than all the rest"  
Because I never come with any less  
Than all the rhymes that will pass the test  
Because I'm cool as ice, I'm twice as nice  
I never had an off-day in my life  
You see, I take all your money, bust out your wife  
Make you dance to my beat all your life  
Cause when I get in my stuff and I start to rhyme  
The sucker MC's hide everytime  
Because my voice is baritone  
And I really don't need no microphone  
But I use one anyway  
To make sure the ladies hear what I say  
And from here to there they hear my voice  
The ladies hear me, I am their choice  
Because my hair's more wavy than there's ships in the  
Navy  
And they use a boat to stay afloat  
To put hickeys all over my throat  
Because I am SO COOOOOOOL...

Because I'm cool as snow, I'm like savoir-faire  
I'm the man you can't find anywhere  
Because I'm cooler than cold, I'm hotter than heat  
I rock to the rhythm of the funky beat  
Because I got what it takes

To make everybody wanna break  
You see I gotta what it take  
I take it, make you wanna break  
Breaker 1 (breaker 1) breaker 2 (breaker 2)  
I say this is what I wanna say to all of you  
Go and telephone, or tell a friend  
The man known as Super Rhymes is back again  
And all you fly guys, I tell you this  
I take your fly girls with one kiss  
Because I take the fly girls, put em in check  
I got my love potion all around they neck  
They've heard my voice and they know my name  
They know within me there burns a flame  
That I'm MC man, headed straight for fame  
I got a Coupe DeVille, diamond rings  
I even got fur coats and gold plate things  
Cause I'm the man of the hour, too sweet to be sour  
The ladies know I'm the man with the power  
And now that you know a little more about me  
This is how I rocked KBC  
You see, deep in the desert, the city Bagdhad  
Aladdin was the boy, a magic lamp he had  
Aladdin was to rub it and soon find out  
That the lamp had magic and a genie, no doubt  
He rubbed the lamp, a genie appeared  
But you really couldn't see him till the green smoke  
cleared  
Well, the smoke was gone, and there he stood  
The tallest damn cat in the neighborhood  
He said, "Where I come from I committed a crime  
For every little thing you must serve time  
But if my lamp was rubbed I'd be set free  
But otherwise within the lamp I stay eternally  
And Aladdin, I say thanks to you  
You rubbed my lamp, now my sentence is through  
And Aladdin, your wish is my command  
I'm sorry, but you only get three, my man"  
He said, "Genie, my first wish would be  
To go to the year 1980"  
"Hocus pocus," said the genie, "I'll do that"  
Aladdin looked around, saw where he was at  
He said, "Damn, things aren't the same  
I wonder if Aladdin is still my name  
But it's nice to be in '80  
And I gotta say thanks to you, genie"  
He said, "There's nothin to it, I used to do it just about  
everyday  
Until I went to court, I got put in the lamp and the judge  
to take the spell away  
But then you came along, made right my wrong  
You rubbed my lamp and you set me free"

He said, "You used one wish, and you got two left  
Aladdin, tell me what's it gonna be?"  
He said, "Genie, in this society  
You must have the green stuff called money"  
So "hocus pocus" said the genie, "here's a million  
bucks  
You take it all with you, here's an armored truck"  
"Thanks," said Aladdin, "Genie, you're a real champ  
But for a little while get back in your lamp"  
The genie said, "Aladdin, yes, I'll do that  
But you got another wish, now I'll be back"  
So with a puff and smoke the genie was gone  
Aladdin said, "A new millionaire is born"  
Well, with all that money he made more money,  
Aladdin was doin swell  
You see, my man Aladdin he got smart, you see,  
invested money into an oil well  
But then one day he said, "I'm tired of makin the desert  
scene"  
He said, "I gotta get away, I gotta go to the disco, find  
the freak of my dream"  
So he took control of his private jet  
His magic lamp and money he could not forget  
Yes, he got to the disco, danced and screamed  
But still couldn't find the freak of his dream  
But then she came, through the door  
The baddest freak Aladdin said he ever saw  
He said, "Wow! I gotta get that girl!  
Her love is worth everything in the world"  
She was a 38-24-35  
Aladdin was attracted like a bee to a hive  
Aladdin walked up, said, "Hello"  
She looked him up and down and said, "You know  
where you can go"  
He said, "Come on, baby, don't play no game  
I'm called Aladdin, tell me what's your name?"  
Well, out of all the things Aladdin tried  
She said, "Listen, sucker, take a carpet ride"  
Aladdin said, "I know what to do  
I call on my genie with a spell for you  
So then he rubbed the lamp, the genie came back out  
The genie said, "Aladdin, what you're fussin about"  
He said, "Genie, I rocked, I said I'd be her man  
I tried to do it to her cause I thought I can  
It was then that I met this girl  
Who said she wouldn't freak me for nothin in the world"  
Out of all the things that Aladdin thought  
She stole him a body, just couldn't be bought  
So Aladdin said 450  
I know you're comin to this bank with me  
But the freak told him no

And my main man Aladdin, he told her so  
He said, "I grab my partner do-si-do  
I spank her to the beat, but don't let go  
Until I hear her holler 'yo, yo'"  
To the beat, beat, check it out  
The genie said, "Aladdin, I agree  
This freak has got a vicious body  
But that wish will be your last one  
After I do, my job is done"  
The genie said, "Your wish is my command  
She'll be your girl, you'll be her man  
So he crossed his arms, said a magic word  
A 'hocus pocus' is what you heard  
He said, "Aladdin, she belongs to you  
Take her home and do what you wanna do  
But now it's time that I leave  
I pull my magic carpet down out my sleeve  
I'm gonna climb aboard, I'm gonna fly away  
Back to Bagdhad, that's where I'll stay"  
So Aladdin looked up, said goodbye  
He watched the magic carpet and the genie fly  
Now this is the end of this little tale  
It's time I keep rockin, the genie's out of jail  
So when I say 'rock', you say 'roll'  
When I say 'ice', then you say 'cold'  
Then when I say 'disco', you say 'the beat'  
I say 'it's like honey', then you say 'it's sweet'  
I say rock - roll  
Say ice - cold  
Say disco - the beat  
Like honey - it's sweet  
Now you know my name, you know my game  
Compared to me there's none the same  
Because I got a funky groove, I'm gonna make your  
body move  
Because I gotta what it take  
I take it, make you wanna break  
Breaker 1 (breaker 1) breaker 2 (breaker 2)  
I said you heard my jam, now catch the boogaloo flu  
Cause I'm Super Rhymes with disco  
I rock from here to Frisco  
I make you hate your video  
While I rock your mind in stereo  
So kick off your shoes, relax your feet  
You're gonna move to my beat, it sound so sweet  
Because it's all of you I do adore  
And I got so much and more in store  
Cause all through the day, through the night  
I sit down and new rhymes I write  
Because this deejay, he gets down  
Mixing records while they go round

With the hiddip, the hop, you just don't stop  
You bop to the beat till it makes your drop  
Because I rock so good, I rock so well  
I ring-a-ding-dang-a-ding-ding-dong  
Baby, I ring your bell  
Because I ROCK and ROLL  
In STERE-ERE-O  
I ROCK and ROLL  
In STERE-ERE-O  
Like Fred Flintstone, said, a-yabadabado  
You hear my jam, wanna yell it too  
Because I got more rhymes than a clock chimes  
I got more rhymes than a monkey climbs  
I got more rhymes than a lemon in limes  
And I got more rhymes than a bank got dimes  
So freak it to the east, freak it to the west  
I freak it to the girl with the biggest chest  
Freak it to the west, then you freak it to the east  
But you never freak out with an ugly beast  
So young ladies in the '80s  
Come and ride in my Mercedes  
Cause the ladies see they all must stare  
Because I got brown eyes and a wavy hair  
I'm not so tall, but I'm not so short  
And you young ladies are my favorite sport  
So put your hand in the air and let me know you're out there  
You put your hand in the air and let me know you're out there  
Then scream: oh yeah (oh yeah) oh what? (oh yeah!)  
Y'all, I'm leavin now, but I'll be back  
To make the young ladies catch a neat freak attack  
Yes, the time has come for me to leave the mike  
But I'll be back with more of what you like  
So - take a trip
