"Something To Say"

Visit "[Something To Say](#)" on MotoLyrics.com

Flipping through a story
The turn of pages everyday
You close your eyes
You fall asleep at night
Dreaming's not that easy
Why don't you just show me how
To live, to breathe
Afraid to wait oh my
Chorus:
All of these people go away
Watching me dancing in their head
Maybe I'll tell you what's inside
Oh yeah, I always got a little something to say
Seems like somethings missing
It comes and goes with every feeling
Each day, each night
It reaches out and cries
Chorus:
People look silly I don't care
Smiling and dancing everywhere
Maybe I'll tell you what's inside
Oh yeah, I always got a little something to say
Now I'm singing my song
Playing out in the open wide
Gotta make it just right
You wanna know what's inside
What's inside
