And I see the face of our time
Winking at me day after day
Seeing through our ways and our lies
But I know that somethings never change
Wicked grin as he leans on the sky
Feel the buzz as he whispers your name
Spin the wheel for the game of your life
And you're caught there

Chorus:

So I'm going to look inside
For that voice to brace my mind
And I'm going to stay by your side
And we're gonna be just fine
Staring at the T.V. so high
Nothing there to lose but your mind
Lay it on the line for the night
And I'm caught there

Chorus:
So I'm going to look inside
For that voice to brace my mind
And I'm going to stay by your side
And we're gonna be just fine
Don't wanna play this game
Here by myself I will remain
Starin' at my shadow
I am caught there

Chorus:

And I'm going to look inside
For that voice to brace my mind
And I'm going to stay by your side
And we're gonna be just fine
We're gonna be just fine
I see the face of our time
