Tell me what I'm looking for
It's only in my head
Tell me what I'm searching for
Believing what is said
Can you give me what I want
It's easier done than said
Turn the tables once again
I'm playing with your head

Chorus:

You I see now
See the sun
Coming down
Wanting you now
But your walls
Keep me out
You I see you
Only you
Never clear but not too sure
Ignoring what is dead
Find the pieces on the floor
And put them in your head
Every moment, tied behind me
Why your indecision binds me

Chorus:

You, I see now
See the sun
Coming down
Wanting you now
But your walls
Keep me out
You I see you
Only you
