It starts and ends with you  
Lost feelings without you  
Starts and ends with you  
I'll make it right this time  
From darkness I reach out  
But I can't read the signs

[Chorus]  
I look up, you look down  
There's a space between us now  
It's where I found you  
It's where I go to  
And work it out  
I look up, you look down  
I feel the space between us  
I've got nothing really going on  
If you hide yourself

(Nothing really going on)  
(I look up, I look up)  
(Nothing really going on)

It starts and ends with you  
Lost feelings without you  
Starts and ends with you  
I'll make it right this time  
From darkness I reach out  
But I can't read the signs

[Chorus]  
I look up, you look down  
There's a space between us now

And work it out  
I look up, you look down  
I feel the space between us

(I look up, I look up) [x3]  
(Nothing really going on)
