The lights were dim, they came from outside  
Took me away, set me on fire  
There's no DNA or cells to admire  
Trail of crumbs leads to a dead end tonight  
Hands cut dead at the wrist  
It's hard to ID when prints don't exist  
Teeth get removed, just a matter of time  
Search gets called off, now they're looking for  
someone else

Why give yourself to pain if you have the chance to  
walk away?  
Now you're giving me one more reason (one more  
reason) to escape  
Why give yourself to pain if you have the chance to  
walk away?  
Now you're giving me (giving me, giving me, giving  
me) one more reason to escape

[interlude]

Blood is thick and skin is pale as the whites of an eye  
You(?) try not to think about what happened that night  
But I keep dreaming on without a witness or wile(?)  
Sleep now, my children, there's no need to cry
