

## Antigone Rising "Oblivious"

Visit "[Oblivious](#)" on MotoLyrics.com

I'm through  
I'm wrapping it up  
I've been beaten by my own game  
a shame  
I'm over my crush

I used to have a good time  
I couldn't be bought  
It was easy, was a given  
I'm in, whatever the cost

But now the cards are stacking up  
against my inner politic  
tell me something good  
I need it

I've been looking for the real thing  
I'm done wasting all my time there  
I keep dying for the real thing  
It may not kill me but it might  
and who, who, who, who, who...  
Tell me then  
Who will lead me out when

I become Oblivious

Am I fool?  
Forever I pined  
I thought I was better standing alone  
than standing on line

How much more of this heartache  
can I stand?  
How long can I be visually positive  
until I'm making it up?

And I could die a complete unknown  
bury me the counterfeit  
spin the lie so I can  
believe it

Low

Lower than down  
Sicker than sick of being tired

And I could die a complete unknown  
bury me the counterfeit  
could have, would have, should have  
I didn't!
