

Antigone Rising **"Push It"**

Visit "[Push It](#)" on MotoLyrics.com

Baby, don't give your love away
Lock down, locked down another day
Give it up 'fore you give it time

Are you sick with the needy need
split wide open for the frenzy feed
kick it, kick it 'fore it sucks you dry

I can hear your head
know what it say?
Push it Push it away

I know the advice
you give yourself
push it push it away

I don't care we're wasting time
you know you're already mine
desires grew from this simple game

long before today

Did you drown in a tidal wave
shot down, ashes in a lovers blaze
so sure this is just a passing phase

I can hear your head
know what it say?
Push it, Push it away

I can change your mind
it's not the same
push it push it away

I don't care we're wasting time
you know you're already mine
desires grew from this simple game
long before today...hey hey...
