I hit the road on Friday  
And wished you were here on everyday  
When I finally spoke to you, you  
Said you were doing okay  
I said if you want you can come on  
The road with me  
You said you had a lot going on  
And you were busy

Well I can't be second place  
In your life  
Cause you're not second place  
In my life  
[repeat 2x]

I watch complete strangers embrace  
As I stand on stage  
Coffee and nicotine get me to the next state  
I've been ringing you for days but  
I just can't get through  
Baby, do you think of me  
As much as I'm thinking of you?

Well I can't be second place  
In your life  
Cause you're not second place  
In my life  
[repeat 2x]

I can't beg you, though I want to  
Tell me you need me tonight

Well I can't be second place  
In your life  
Cause you're not second place  
In my life  
[repeat 2x]
