"Tear Out My Heart"

Visit "[Tear Out My Heart](#)" on MotoLyrics.com

I told you not fall for girls like me
My heart's the best but my mind destroys me
I'll ruin everything you want to have
I warned you so you wouldn't get mad
Please don't get mad

And the postcards lines were kind of smeared
From the rain and trials while traveling
And I barely could read what you said
But I got "maybe we're better off as friends"
What line is that?

Baby can't you see
That you weren't made for me
So before you leave
Tear out my heart

I'd killed for you to say it to me now
To tell me that we will never work out
And if god that's true, best of luck to you
I'll be looking up while you're looking out
Keep looking out

Baby can't you see
That you weren't made for me
So before you leave
Tear out my heart

So here we go once again
Staring at reflections of what we once had
And every bridge I ever built you burned
Well I guess it's time I learned how to swim
So push me in
